Getting started

The system consists of three components demo-lms, demo-cms and baazar, the interaction of which is shown in the images below:

Choose material

View material

To get started, go to https://demo-lms.educloudalliance.org/ and log in to the test application.

0,4

Select "Simulated LDAP School" and then enter the test login and password for pvirtane / pvirtanepwd.

Q	<u></u>					

A request will be made to the baazar API with the id of the material and in return a link with a unique token will be returned for further validation.

0,4

To validate the token, click the button to view_url. There will be a redirect to the demo-cms from where the request to the baazar API validate will be sent, as a result of the validation, the baazar API will return a response that will contain information about material or an error message if such a token already exists or has expired (the token runs for 60 seconds).
